

Eglinton Green

Eglinton Square Shopping Centre is constantly striving for higher efficiencies and lower waste in all areas of operations. Not just to save money, but in an effort to meet BOMA Best standards, thereby being the best we can for our customers and community. **for more on BOMA Best, visit <http://www.bomabest.com/>*

Thank you to our Shoppers, Retailers, and Contractors who have all helped us by recycling responsibly. We have come a long way!

Here are some examples of our combined successes in 2010:

- Saved 832 trees
- Prevented 104 tons of Green House Gas
- Saved 229,280 KWH of Energy
- Saved 208 cubic metres of landfill space
- Prevented 1324 KGS of air pollutants from being released
- Saved 1,296,547 LTRs of water

The BEST news?

We have achieved 49.6% garbage diversion rate thus far in 2010.

BUT WE CAN DO BETTER! Please help us in this quest by utilizing the recycling receptacles provided!

Other Green Initiatives:

- Continuation of lighting retrofits, common area lighting, signage, etc.
- Continuation of conversions to low flow faucets, toilets, urinals

We are investigating a host of exciting new technologies that will ensure Eglinton Square continues its journey towards a greener tomorrow! Check these out:

- Water Harvesting – water reclamation landscaping, external water needs, “Grey Water”
- Solar panels
- Solar thermal hot water
- Thermal film on atrium windows to reduce heat-gain/loss and reduce ‘load’ on cooling/heating equipment
- And more to come...
